

REMARKS

Claims 21-24, 30, and 35-37 have been amended. Accordingly, claims 21-24, 30-33, and 35-37 are currently pending in the application, of which claims 21, 30, and 35 are independent.

Applicants respectfully submit that the above amendments do not add new matter to the application and are fully supported by the specification. Support for the amendments may be found at least in Figures 4a, 4b, and 6 and at page 7, lines 1-32 of the specification.

If the Examiner believes, for any reason, that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at the number provided.

Prompt and favorable consideration of this Amendment is respectfully requested.

Interview Summary

Applicant thanks the Examiner for the courtesies extended during the interviews of May 5 and May 7, 2010. During the interviews, the Examiner indicated that claims 21, 30, and 35 would be allowable if amended to include subject matter making the claim language clearer, correcting typographical errors in claims 22 and 23, and overcoming statutory subject matter concerns in claims 35-37.

While Applicants have amended claims 21, 30, and 35 to more particularly point out the invention, Applicants do not admit that the features recited in claims 21, 30, and 35, prior to this amendment, are unpatentable over U.S. Patent No. 6978264 issued to Chandrasekar, *et al.* ("Chandrasekar") and U.S. Patent No. 7,146,416 issued to Yoo, *et al.* ("Yoo"). Rather, Applicants have amended claims 21, 30, and 35 for the sole purpose of expediting prosecution of this application. Hence, Applicants do not intend to surrender subject matter of un-amended

claims 21, 30, and 35, and Applicants reserve the right to argue the patentability of un-amended claims 21, 30, and 35 in a continuation application or appropriate forum.

Respectfully submitted,
